2022 Workshop on Methods for Three-Dimensional Microstructure Studies

Agenda

The final agenda is at:

http://mimp.materials.cmu.edu/rohrer/3DMS_workshop_22/Agenda.pdf

Technical Preparation

The workshop features a significant tutorial component and you will get the most out of it by following along on your own computer. To do this, I recommend you prepare in the following way.

1. Download the sample data and pipelines at:

http://mimp.materials.cmu.edu/rohrer/3DMS_workshop_22/3DWorkshop2022_files.zip

(the file is about 600 MB, so allow enough time)

2. Download and install newest DREAM3D version: http://dream3d.bluequartz.net/binaries/cmu_2022

3. Download/install an updated version of ParaView at: <https://www.paraview.org>

Remote participation

For those of you that are planning to participate remotely, you can join the meeting at:

<https://cmu.zoom.us/j/96951620632>

Meeting ID: 969 5162 0632

Guest internet access while on CMU's campus

If you are from an academic institution, I recommend you just select the "eduroam" network which will allow you to login in with your institutional credentials.

If you are not part of the eduroam network, then:

1. Select the CMU-GUEST wireless network.

2. Visit any web page.

3. You will need a valid non-CMU email address and the access code below. One session per email address.

4. Accept the terms of use and click Log In.
